About Us

Essential Pharma is part of a larger group of companies whose aim is to ensure the sustainable supply of low volume, difficult to manufacture but clinically well-established pharmaceutical products to patients who need them. These branded and generic medicines form an essential part of the pharmacopeia and represent many therapeutic areas. We operate in over 20 countries, including in the UK, EU, Asia and New Zealand, supplying a portfolio of over 150 essential therapies across 9 therapeutic areas. Our products are manufactured to the highest regulatory standards at 8 sites in the EU and 2 sites in the USA.

The Role

As Senior Director, Integration, you will project manage all parts of the integration of newly acquired products, from deal completion to Supply Chain handover. You will act as Subject Matter Expert and be a core lead in the Integration team. A critical number 2 for the VP, Integration.

Key Duties and Responsibilities

Your main tasks and responsibilities will include:

- Ownership and accountability for successfully integrating acquired brands/products.
- Align project objectives and milestones to the business goal.
- Construct project schedule and detailed work plans.
- Communication and delegation of tasks within the work plans to internal functions in order to achieve the business goal of the project.
- Oversee internal functions, such as Finance, Operations, Supply Chain and Tech Transfer to ensure key milestones are delivered to ensure overall progress of the project.
- Lead projects without clear line management authority.
- Overall project tracking, and continuously analyse the project progress, and where necessary adapt project plans to ensure that the project can still be achieved in compliance with the business goal
- Tracking and management of potential risks to achieving milestones and project goals,
- Acts as liaison between the Company and the Seller/Buyer's project team
- Responsible for set-up and running of project meetings both internally and with the Seller/Buyer's project team
- Regular reporting to SMT, including achievements, progress of on-going tasks and risks to the project
