About Us

Essential Pharma is part of a larger group of companies whose aim is to ensure the sustainable supply of low volume, difficult to manufacture but clinically well-established pharmaceutical products to patients who need them. These branded and generic medicines form an essential part of the pharmacopeia. We operate in over 20 countries, including in the UK, EU, Asia and New Zealand, supplying a portfolio of over 150 essential therapies across 9 therapeutic areas. Our products are manufactured to the highest regulatory standards at 8 sites in the EU and 2 sites in the USA.

Essential Pharma are currently building a Malta team and offices are due to be found in the coming months.

The Role

To help drive M&A efforts by creating valuation models to generate offers and guide decisions for potential acquisitions; to provide research and due diligence support to refine this model as it evolves through a transaction, and to work with internal stakeholders to provide the relevant model outputs for forward planning and integration.

Key Duties and Responsibilities

Your main tasks and responsibilities will include, but are not limited to:

- Creating and running valuation models to help determine offers for potential acquisitions
- Helping to generate a Base Case and relevant Upside cases in the model
- Doing research to 'stress test' the assumptions in the model
- Supporting the drafting of investment documents, internal presentations and non-binding offers
- Participating in financial due diligence and assessments of potential targets

Your Profile

You will have:

Qualifications

- Degree in a data related degree is advantageous (Mathematics, Business, Statistics etc...)
- CFA would advantageous

Experience

- Strong model building experience is essential
- Experience with complex macros is essential

- Power BI exposure an advantage
- Financial and or M&A experience is an advantage
- Healthcare or Pharma experience is an advantage
- Multinational experience is an advantage

Competencies

- High numeracy with good attention to detail
- Capacity to work with large data sets to generate models
- Forward-thinking in generating financial outputs that are auditable and easy to interpret
- Strong Agile thinker who can adapt to situations of high-speed change
- Problem solver who can work through complex issues
- Candidate must demonstrate a Growth mindset and willingness to learn
- Must demonstrate integrity and high ethical standards
- Previous demonstration of working effectively as part of team with strong collaboration
- Demonstrates a willingness to achieve goals together and respect the view of others
- Results-orientated and accountable for actions
- Takes ownership of core responsibilities, but able to pitch in and 'wear different hats' as needed
- Good with workflow and managing expectations
